

3rd Bad Honnef PhD school on

Plasma-Astroparticle Physics

The PhD School comprises of lectures accompanied by practical tutoring, which is meant to give further insights into specific topics.

Lectures

Lectures will be focusing on the following areas

- > Astrophysical Plasmas
- > Detection of energetic particles
- > Analysis and Interpretation

Tutoring

The topics of the tutoring groups are

- > Astrophysics
- > Plasma physics
- > Particle physics

Credit Points

The school corresponds to a lecture with 2h hours teaching and 1 hour exercises per week. Credit points in the frame of the European Credit Point System (ECTS) can be awarded.

Confirmed Speakers

Elisa Bernadini, Sara Buson, Ralf-Jürgen Dettmar, Dominik Elsässer, Martin Erdmann, Dorit Glawion, Kevin Kröninger, Anna Nelles, Martin Pohl, MJ Püschel, Kostancja Satalecka, Michael Schmelling

When?

20.01. – 25.01.2019

Where?

Physikzentrum, Bad Honnef, Germany

Registration

The registration for the PhD School can be completed under the following address

www.pbh.de

Organization

Ruhr Astroparticle and Plasma Physics Center (RAPP Center)

Wolfgang Rhode
Julia Becker Tjus
Dominik Elsässer
