

Bad Honnef Physics School

Supported by the Wilhelm and Else Heraeus-Foundation

Physics of the Ocean

July 2 - 7, 2023, Physikzentrum Bad Honnef, Germany

Organised by

Martin Visbeck (GEOMAR Kiel), Sabrina Speich (Ecole Normale Supérieure), David Marshall (Oxford University)

For research master students, graduate students and first year postdocs

Lecturers and Topics include

Sabrina Speich
(Ecole Normale Supérieure of Paris, France)
- Southern Ocean Circulation

David Marshall
(Oxford University, UK)
- Mesoscale Ocean Dynamics

Martin Visbeck
(GEOMAR Kiel, Germany)
- Global Ocean Observing Systems

Helen Johnson
(University of Oxford, UK)
- Ocean circulation and climate, Arctic ocean

Arne Biastoch
(GEOMAR Kiel, Germany)
- Global and Regional Ocean Modeling

Peter Brandt
(GEOMAR Kiel, Germany)
- Tropical Oceanography

Eleanor Frajka-Williams
(University of Hamburg, Germany)
- Observational perspective on ocean circulation

Erik van Sebille
(Utrecht University, The Netherlands)
- How ocean currents shape marine ecosystems

Camille Lique
(IFREMER Brest, France)
- Ocean Dynamics of the Arctic Ocean

Fees:

Covering full board and lodging at the Physikzentrum Bad Honnef
200 € (for DPG members 100 €).
