

# Bad Honnef Physics School

Supported by the Wilhelm and Else Heraeus-Foundation

## Integrable Techniques in Theoretical Physics

July 14 – 19, 2024, Physikzentrum Bad Honnef, Germany

For Master Students,  
PhD Students and  
early career PostDocs

### Topics and Lecturers

**Separation of Variables, Form Factors and Correlation Functions**  
Veronique Terras (Université Paris Sud)

**Introduction to Generalised Gibbs Ensembles and Generalised Hydrodynamics**  
Benjamin Doyon (King's College London)

**An Introduction to the Form Factor Program in Integrable Quantum Field Theories**  
Olalla Castro-Alvaredo (City University of London)

### Fees:

Covering full board and lodging at the Physikzentrum Bad Honnef  
200 € (for DPG members 100 €).

Application & more information: [www.pbh.de](http://www.pbh.de)
