

The Research Training Group “Quantum many-body methods in condensed matter systems”

invites you to the tutorials:

“Nonequilibrium Renormalization Group Methods”

at the

DPG Frühjahrstagung / Spring Meeting.

When:

Sunday,
March 15th,
2015

4 - 6.30 pm

Where:

TU Berlin,
Hauptgebäude
H 0110

Lecturers:

Herbert Schoeller (RWTH Aachen University):

“Real-Time RG: Nonequilibrium properties of open quantum systems”

Stefan Kehrein (Göttingen University):

“From lunar motion to real time evolution of quantum many-body systems”

Severin Jakobs (RWTH Aachen University):

“Functional RG approach to nonequilibrium transport through mesoscopic systems”
